If a father wishes to give his son a legacy
that will endure while life exists, let him
send him to an institution where he can ob-
tain a practical education, and he will have
the satisfaction of knowing that he has given
him what is better than houses, lands and
farms or even gold or silver. These things
may take wings and suddenly fly away; but
this knowledge will last while life and reason
exists.—*Horace Mann.*

NORMAL DEPARTMENT.

The instruction in this department will be confined almost entirely to the English Branches, the great object being to send out teachers fitted in every respect to teach the schools of our State. Every effort will be made to secure thorough study and accurate knowledge of the English tongue. To be thoroughly prepared the teacher must master not only matter but method. Normal students will be required from time to time to take charge of classes in order to learn to do by doing.

Admission to either of this course shall be by diploma from the Common Schools, or on examination equivalent to the test for graduation from the Common Schools, but the faculty of any school shall be authorized to receive, as prescribed by the Board of Regents, such students as they may see proper, who are not prepared to enter these regular courses, and shall classify them as Preparatory Students. The course of study for Preparatory students shall be that of the Upper Grade of the Course for Common Schools, or so much thereof as the faculty may prescribe.

This course is intended to embrace three years—Junior, Middle and Senior; and upon the completion of the Senior Course and an examination, equal at least to seventy-five per cent. of the questions asked upon the studies of the same, the Board of Regents will confer upon the candidate a Diploma, with the title of Normal Graduate. It is made requisite to a diploma that the student shall have good moral habits, good literary habits, a maturity of judgment, and other personal accomplishments essential to give popular, social and school success to the teacher.

The object of Free Schools is to make the youth of our country honorable and virtuous citizens, and for this work teachers should have special training. This Normal School is open to aid young men and women in this peculiar self-preparation, and it is expected that all who graduate have attained commendable proficiency in this direction.

There will be exercise in composition and declamation throughout the entire course.

Theory and Practice of Teaching will be taught mostly by class work. Normal pupils will be required to hear classes recite on the different branches in the presence of their instructor, and to take charge of classes from time to time to become familiar with methods, school work, etc.

ACADEMIC DEPARTMENT.

This Department was added by the Board of Regents in 1885, and is intended to prepare students for a regular college course and to fit them to enter the State University of West Virginia.

The studies of this Department may be taken as a special course, or they may be carried along with the Normal Course when they do not interfere with it, as all the studies except the Latin and Greek are in the Normal Course.

The Principal is authorized to issue to the student completing this course a certificate; which will be received at the State University as equivalent to its Preparatory Course, in accordance with a resolution to that effect passed by the Regents of the University.

Academic Course.

The Academic course of study shall consist of two years—Junior and Senior.

ART DEPARTMENT.

In this Department instruction is given in vocal and instrumental Music, French and Art Embroidery.

Superior advantages are offered in these branches, progressive and practical methods being employed and every facility offered to aid the student in the work.

In music such technical exercises are given as will develop and strengthen the fingers and insure a correct and clean execution, while the studies and compositions are carefully selected with a view to awakening and stimulating good taste in the pupil.

Since no successful advancement can be made until the pupil is well grounded in first principles, special attention is given to elementary instruction and the constant aim is to lead the pupil by thorough and systematic instruction to an understanding and appreciation of the best music and the proper execution of the same.

This course will require four years for completion. Should the pupil possess marked talent and great energy, it may be finished in less time.

The Fall Term opens Monday, September 9, 1895, and continues until Friday, Friday, November 29, 1895—12 weeks.

The Winter Term opens Monday, December, 1895, and continues until Friday, March 20, 1896—16 weeks.

The Spring Term opens Monday, March 12, 1896, and continues until Friday, June 12, 1896—12 weeks.

ORIGIN OF THE SCHOOL.

Shepherd College was opened September, 1871, as a classical and Scientific School.

February 27, 1872, the Legislature passed an act establishing a Branch State Normal School in the College. The school was organized, by the Regents, November 21, 1872; but owing to changes in the law, the Normal work was not successfully begun until September 7, 1873. It closes its twenty-second year with the earnest of a useful, prosperous future, and the determination on the part of the regents, patrons and teachers to make it "Second to none" in the State.

LOCATION.

Shepherdstown is situated on the right bank of the Potomac river. It is about ten miles from Martinsburg and the same distance from Harper's Ferry. The Norfolk and Western R. R. passes through the town, and makes connection with the main line of the Baltimore and Ohio R. R. at Shenandoah Junction, six miles south of Shepherdstown.

The grand and picturesque mountain and river scenery of the surrounding country and the various places of historic interest within a radius of a few miles, make the town a beautiful and interesting home for the student. The citizens are noted for their hospitality and culture and are deeply interested in the welfare of the school. Population 1,700.

BUILDINGS.

The handsome and substantial building stands on an eminence near the center of the town. The main building was erected by the late Mr. R. D. Shepherd of this vicinity, later wings were added and the whole building valued at \$30,000. Mr. Shepherd Brooks, of Boston, grandson of the late R. D. Shepherd, has generously donated, to the trustees, the use of these buildings for school purposes. Under the wise and skillful direction of the Executive Committee the building and grounds are becoming more attractive each year.

Within the past year the Music Rooms have been artistically fitted up; a Reading Room furnished and its tables supplied with the best literature of the day. The effect of this

valuable aid to education has been felt and appreciated by both teachers and students.

A fine library is now owned by the college. The students have access to these books. Every effort is made to induce students to read. The Faculty feel encouraged in their efforts in that direction. The building is heated by hot water.

THE WORK OF THE NORMAL.

The design of the Normal School is to prepare thorough, practical, conscientious teachers for the schools of the State and students for a higher education.

This is done:

1. By giving thorough instruction in all the branches taught in the State.
2. By giving instruction in the theory and practice of teaching.
3. By giving those who desire it, instruction in Ancient and Modern Languages; the Sciences; Higher Mathematics; and Music.

Satisfactory evidence of the success of this work is in the fact that a majority of the schools of this section are taught by Normal Graduates who have proven themselves eminently fitted for their high calling.

MORAL CULTURE.

The school is a State institution, therefore non-sectarian. There are seven churches in the town, and students are cordially welcomed to their regular services and Sunday Schools.

The Y. M. C. A. is also an active and interested agent among the young people of the College. Students are required to attend devotional exercises held each morning in Chapel Hall. The school is greatly indebted to the ministers of the town for their kindness in frequently conducting these exercises.

GOVERNMENT.

Self Government, strengthened and directed by older and wiser heads, is the government of the school. Students are required to act promptly, obey the rules and regulations of the school, and conduct themselves, under all circumstances, as ladies and gentlemen; but they are led to do these things from a sense of right, rather than that of obligation. The aim of the government is to inculcate principles of right-living and self-control, and thereby develop the true man and woman, and worthy citizen.

EXAMINATIONS.

Examinations on all the studies are held at the close of each term. These examinations are conducted by the teachers in their respective departments, and will be either written or oral, or both combined. Wilful absence from these will not be tolerated, and no student can advance without passing satisfactory examinations in all the branches of his grade.

Reports of the progress, conduct and attendance of the students will be sent regularly to the parents or guardians, and they are requested to examine carefully their reports, and report to the Principal that they have been received.

LITERARY SOCIETIES.

The Parthenian and Ciceronian Literary Societies afford special advantages in Composition, Reading, Declamation, Oration, Debate and Parliamentary Ruling. These are *all* required in the regular course. It, therefore, becomes the duty of every student, entering college, to connect himself with one of the societies and become an active member. The exercises are under the personal direction of the Faculty.

TO PARENTS AND GUARDIANS.

We earnestly ask the co-operation of parents and guardians in securing the very best results for the coming year. The teacher may guard the students against error, he may point out the way of right and duty; but without the earnest co-operation and vigilant care of those more closely related to that student, his efforts will, *too often*, fail. *Self activity* and *industry* on the part of the student is *necessary* and *watchful, interested* care on the part of parent or guardian is *just as essential* to the ultimate success of that student. See, then, that your child be regular and punctual in attendance; that he spends a *reasonable* amount of time in the preparation of his school work; that he is provided with funds to pay promptly all necessary expenses; that he brings home his report at the close of each term, and if said report is not satisfactory, *diligently inquire* into the cause thereof, and *vigorously second* the teachers' efforts to raise that standing.

Attention is called to the fact, that all exercises begin promptly on the day stated in the *Calendar*.

ADMISSON.

To enter the Normal Department, as a State Normal Pupil,

the applicant, if a male, must be fourteen years of age, if a female, thirteen.

All applicants must pass an examination in reading, spelling, arithmetic, geography, and first lessons in English grammar.

Such pupils are admitted free of tuition, on condition that they teach, after graduation, one year in the free schools of this State, at the usual compensation. Application for Normal appointments should be made to the Superintendent of the county in which the applicant resides; but if the quota of the county is full, application should be made to the Principal of the school which the applicant desires to attend.

The number to which each county is entitled has been fixed by the Board of Regents as follows:
